PRICE TWO CENTS

Miraculous Benefit RECEIVED FROM Dr. Miles' New Heart Cure.

ELI P. BARBOCK, of Avoca, N. Y., a veteran of the 3rd N. Y. Artillery and for thirty years of the Barbock & Munsel Carriage Co., of Auburn, says: "I write to express my gratitude for the miraculous benefit received from Dr. Miles' Heart Cure. I suffered for years, as result of my life, from sciatica which affected my heart in the worst form, my limbs swelled from the ankles up. I bloated until I was unable to button my clothing; had sharp pains about the heart, smothering spells and shortness of breath. For three months I was unable to lie down, and all the sleep I got was in an arm chair. I was treated by the best doctors but gradually grew worse. About a year ago I commenced taking Dr. Miles' New Heart Cure and it saved my life as if by a miracle."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle free. Book on diseases of the heart and nerves free. Address, DR. MILES MEDICAL CO., Elkhart, Ind.

CABLEGRAM FROM MADRID

Announces That Terms
Are Accepted.

Dispatches to London Papers From the Spanish Capital All Say That the War Is Near an End, Owing to the Cabinet Accepting the Terms of the United States to Cease Hostilities—Rome Telegram Says the Peace Conditions Will Be Signed Saturday—Washington Authorities Continue the Preparations for War, Notwithstanding Advice Received From Confidential Agents.

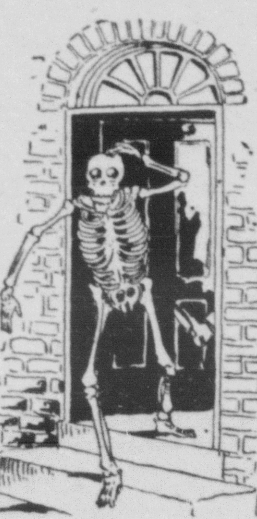

Washington, Aug. 3.—Shortly before last midnight Secretary Alger, as he left the white house after a conference with the president, said the administration had received no official information that the Madrid government had accepted the terms of peace proposed by the United States.

Unofficially the president had been informed the Spanish ministry had acceded to the terms of this country for a cessation of the war. The unofficial advice have reached the president in the form not only of press dispatches, but of private dispatches from confidential agents of the United States government.

While this government has strong reasons for believing that its terms of peace have been agreed to by the Madrid government, the president is taking nothing for granted. Arrangements for pressing the war to a successful conclusion are going forward precisely as if no negotiations for peace were in progress. At a conference participated in by the president, Secretary Alger and Adjutant General Corbin at the executive mansion last night a final decision was reached as to the constitution of the provisional corps for Porto Rico to be commanded by General Wade. The regiments which are to comprise the corps were decided upon and will be designated in a general order yet to be issued. Secretary Alger said that the corps might be enroute to Porto Rico within a week.

Notwithstanding these warlike preparations, the belief in official circles amounts almost to a conviction that active hostilities practically have been concluded.

A prominent official of the administration says:

Unless the proper precautions are taken, death will lurk in every home. It dogs the footsteps of the husband, wife and children alike. If the husband is an ambitious man, the chances are that he will overwork and overexert and take insufficient time to rest, eat and sleep. At first he may feel his trifling ill effects from his indiscretion. Then he will suffer from headaches, loss of appetite, loss of sleep, lassitude in the morning, drowsiness during the day and a general "out-of-sorts" feeling. If these conditions are neglected, almost any serious malady may be the result. Frequently it is some nervous disorder or dread consumption. Dr. Pierce's Golden Medical Discovery is the best medicine for hard-working men. It gives edge to the appetite, makes digestion and assimilation perfect, invigorates the liver and purifies and enriches the blood. It is the great blood-maker and flesh-builder. It cures 98 per cent of all cases of chronic or lingering, bronchial, throat and lung affections. All too frequently, death dogs the footsteps of the wife, in the guise of weakness and disease of the delicate and important organs that bear the burdens of wifehood and maternity. There is an unfailing cure for disorders of this nature. It is Dr. Pierce's Favorite Prescription. It acts directly on the sensitive organs concerned, making them strong, healthy and vigorous. It fits for wifehood and motherhood. They are sold at all medicine stores. During early childhood death lurks in every corner for these fragile innocents. The mother can only protect her babies by acquiring some practical medical knowledge. Dr. Pierce's Common Sense Medical Adviser imparts this knowledge. For a paper-covered copy send 21 one-cent stamps, to cover cost of mailing only, to Dr. R. V. Pierce, Buffalo, N. Y. Cloth binding 31 stamps.

"The end is near, in my opinion. The information thus far received is unofficial and meager, but that it is accurate, in the main, we have no reason to doubt. In fact, we have reason to believe it is correct."

Ambassador Cambon, who is conducting the negotiations for the Spanish government, has not communicated with the president and it is not probable that the official response to the terms proposed by the United States has yet reached the French ambassador. Upon its receipt it will be transmitted to the president without delay.

Spain Accepts.
New York, Aug. 3.—A special cable from Madrid says: "Spain accepts the conditions of peace as set forth by the American government and only the peace details are needed to cause all hostilities to cease at once."

"A peace delegation will be chosen at once to confer with the representatives of the United States. The peace conditions set forth by President McKinley were discussed at length yesterday by Minister Sagasta and at the conclusion it was given out officially that the terms of the United States would be accepted. There are one or two amendments in the proposition of the United States that Spain will ask to be made and if this is done peace will be declared at once."

LONDON PAPERS.
Have Special Dispatches Announcing the Cabinet Decision.

London, Aug. 3.—The Madrid correspondence of The Daily Mail says: "The government has accepted the principle of the American conditions, but the acceptance will not be made public until inquiries to Washington on matters of detail have been settled thus rounding off the preliminary basis."

A Gibraltar dispatch to The Daily News says: "The censorship is daily becoming more severe, and little is known beyond the fact that peace is assured. It is understood that the note from America asks only a part of the Philippines, and that Senor Sagasta having replied that the terms will be accepted, hostilities are consequently suspended."

"A commission will be appointed to determine the basis of peace. The chief difficulty, it is asserted in official circles, is as to the date and manner of the evacuation of the Spanish possessions. There is also the question of the disposal of the war material in Cuba. Senor Sagasta, if he has a chance, will probably represent a restitution of the material as a diplomatic victory."

"It has just been asserted here that the premier has succeeded in obtaining slightly improved terms. The treaty will not be signed before September."

Terms Will Be Signed Saturday.
The Rome correspondent of The Daily Chronicle says: "Spain, it is asserted here, has accepted the American terms, with unimportant reservations, and the peace preliminaries will be signed before Saturday."

Madrid cablegram to The Standard says: "The government's reply to the American terms was forwarded Monday evening through M. Cambon, and there is a strong prospect that peace will be concluded. It is not to be supposed that the United States government will object to representations being made on the Philippine question and upon some pecuniary claims which were mooted by the United States in the West Indies. On all the remaining main issues, Spain shows a disposition to assent to the American demands."

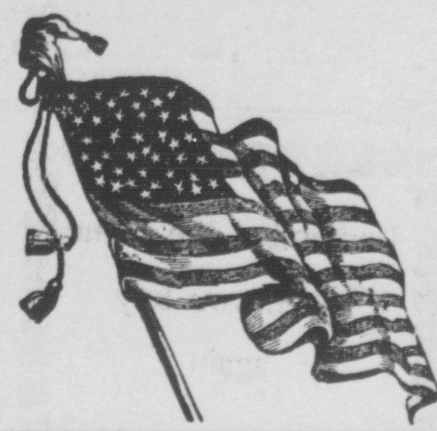

Manila News Causes Anxiety.
"The news from Manila still causes anxiety. No foreign mails reached Madrid yesterday in consequence of floods near Burgos."

"With regard to the part played by M. Cambon, the French ambassador at Washington, there is now a marked tendency both here and in Paris to attribute to it considerable importance. Directly the final arrangement is made it is supposed that the press will be allowed more liberty of comment. The general impression is that both governments are disposed to put an end to the war as honorably as possible for Spain, which would have been easier had the United States not imposed such hard conditions with regard to the Philippines."

The Madrid correspondent of The Daily News says: "The government's reply to the American peace terms left here Monday evening. The government believes that the nature of the negotiations requires the greatest secrecy and that their success will depend upon the observance of the most absolute reserve here. Official silence, therefore, is complete."

MANASSAS.
The New Camp Selected for the Troops at Camp Alger.

Washington, Aug. 3.—Camp Alger, Va., is to be abandoned by the war department and the 20,000 men there are to be removed to a more healthful locality, near Manassas, Va. This determination is about 40 miles south from Washington, is near a mountainous country and the town proper is on the line of direct railroad communication with the capital city. The start from Camp Alger is to be made as soon as possible and the trip to Manassas will be in light marching order, giving the troops some practical experience in army movements. The following regiments and organizations are now at Camp Alger, in command of Major General W. M. Graham:

First New Jersey, Seventh Ohio, Sixty-fifth New York, battalion of the Ninth Ohio, Third Virginia, Twelfth Pennsylvania, Thirtieth Pennsylvania, One Hundred and Fifty-ninth Indiana, Twenty-second Kansas, Third New York, Sixth Pennsylvania, Fourth Missouri, Seventh Illinois, First Rhode Island, Third Missouri and Second Tennessee.

CHICKAMAUGA.
Fifth Illinois Gets Another Order to Move to Newport News.

Chickamauga, Ga., Aug. 3.—Major General J. C. Breckinridge arrived from Washington yesterday and assumed command of the army at Camp Thomas, relieving Brigadier General Frank, who had been temporarily in command.

The Fifth Illinois infantry, which was heretofore twice ordered to the front and as many times ordered back into camp, received final orders from the war department yesterday afternoon to proceed to Newport News, there to report to Brigadier General Fred D. Grant for embarkation with his brigade to Porto Rico. Colonel Culver, commanding this regiment, naturally felt greatly relieved, as did all of the officers and men, and there was general rejoicing in the regiment. This is the only regiment that received moving orders yesterday.

General Breckinridge thinks the moving orders heretofore will be on the basis of representing all states proportionately at the front.

Attacked by Americans.
Madrid, Aug. 3.—It is reported here that two Spanish steamers forced the blockade in Cuban waters late yesterday and were attacked by the Americans.

Will Fight to the Bitter End.

Sedalia, Ind., Aug. 3.—Clinton county commissioners refused a license at their last session for a saloon in this place. The drinking men of the town then organized a club and restocked the room formerly occupied by the saloon. This incensed the temperance people and they dynamited the building out of existence. The clubmen will rebuild and fight to the bitter end.

One Killed and Fifteen Injured.
Winslow, Ariz., Aug. 3.—In a train wreck on the Santa Fe near Holbrook, Ariz., Ray Gooding of Kingman, was killed and 15 others injured, one of whom will die. The disaster was caused by a broken rail. Four cars were over, two Pullmans, one chair car and a coach.

Revenue Receipts.
Denville, Ky., Aug. 3.—Revenue receipts for the Eighth district for July aggregated \$147,135.54, divided as follows: Lists, \$5,739.48; beer, \$2,118.25; spirits, \$128,890.08; cigars, \$3,600; tobacco, \$437.04; special, \$6,406.54; documentary stamps, \$3,113.28; proprietary stamps, \$427.98.

AN OUTBREAK EXPECTED

By Washington Authorities at Almost Any Moment.

HOSTILITY TO MONKS

American Commanders Ordered to Act in the Interest of Humanity—Reports Received From Porto Rico Give Great Satisfaction at the War Department. Shafter's Sanitary Report—Condition of the Transports at Santiago Found to Be Shocking—Some Courtmartial Cases in High Places Looked For.

Washington, Aug. 3.—The officials here make no concealment of their apprehension of serious trouble to follow the execution of our programme in regard to the Philippines. The reports of the military and naval commanders of late have contained warning of expected conflicts with insurgents and no surprise will be felt at the receipt of news of an outbreak at almost any moment. The United States government feels that it has assumed a moral obligation toward not only the foreign residents at Manila, but toward the unprotected classes of the Spanish community, women, children, nuns and priests. Therefore when intimation came that the insurgents were threatening the lives of some helpless monks orders were sent to the American military commander to look into the matter and to act in the interests of civilization and humanity. As, according to report, the insurgents have shown particular hostility toward the monks it is a reasonable expectation that before long a collision will have occurred between themselves and the American troops if the latter undertake to interfere in the execution of the vengeance of the insurgents.

Some reports which have been received from Porto Rico, but which, for political reasons, cannot be made public, have given great satisfaction to the officials of the war department, since they go to show that the resistance which can be made by the Spanish troops will be very little, and it is even possible that General Miles will achieve an almost bloodless victory. In fact, it has been suggested, with some plausibility, that the Madrid government has allowed the Spanish garrison of the island to understand that they are not expected to sacrifice their lives in useless resistance to superior force so that all that is to be expected is to be a rather formal opposition to the progress of General Miles' triumphal march across the island.

Shafter's Health Reports.
General Shafter's health reports state that he is now caring for over 6,000 sick people, including Spanish soldiers, many of whom were found to be very ill. The task is a formidable one and the attempt to care for all patients probably explains in a measure the lack of adequate preparation of the transports employed in bringing home some of the wounded and sick. The conditions on these boats were found to be so shocking as to demand an immediate official investigation, which was begun yesterday, and some courtmartial cases may be looked for in high places unless it can be shown clearly that the lack of preparations was unavoidable.

Major General Young called at the war department yesterday fresh from the front, where his health broke down under the severe exertions imposed by the campaign. He spent some time with Secretary Alger, as did Major General Wade, who has not yet been able to perfect the arrangements for his expedition to Porto Rico. For the transportation thereof the war department is making an effort to secure the American liners Harvard and Yale (late the New York and Paris), now in the charter of the navy department, and it is believed that the effort has succeeded. As to the other liners, St. Paul and St. Louis, the navy department has not yet reached a decision, though in view of the president's desire to curtail war expenditures wherever possible, it is expected that they too will be surrendered by the navy department in the course of a few days. In this case four of the naval captains would be left without commands, namely, Sigbee of the St. Paul, Wise of the Yale, Goodrich of the St. Louis and Cotton of the Harvard, for even if the vessels were used as army transports, the law would not permit naval officers to command them.

Shafter's Sanitary Report.
Washington, Aug. 3.—In a dispatch received late yesterday General Shafter gives the sanitary report of his army as follows: Total sick, 4,255; total fever, 8,164; new cases of fever, 653; cases of fever returned to duty, 722. Deaths, 10.

GARCIA'S MOVEMENTS.

Report That He Has Had a Heavy Fight With Spaniards.

Phya del Este, Guantanamo Bay, Cuba, Aug. 3.—News was received here yesterday from General Calixto Garcia and the Cuban forces under him at Mayari, near the bay of Nipe on the north coast of the province of Santiago de Cuba. The report is that General Garcia has been in a heavy fight with Spanish troops who were trying to effect a junction with the main body of Spanish regulars at Holguin.

These Spaniards were probably the force that evacuated Nipe Bay during the recent naval bombardment. A large body of Cuban re-enforcements had reached General Garcia, and the impression is that he defeated the Spaniards in this engagement, or, at least, held his own. The Cuban dispatch says that two cannon had already been taken from the enemy and that the Spanish cavalry had been defeated, whatever that may mean. General Garcia had moved toward Holguin, as it was reported that the Spaniards were trying to open their way through the Cuban lines to the province of Puerto Principe.

POSTAL COMMUNICATION.

Opened Between Ponce, Porto Rico, and the United States.

Washington, Aug. 3.—Postmaster General Emory Smith issued an order yesterday modifying a former one prohibiting the dispatch of mail to Spain or her dependencies, so as to permit postal communication with Ponce, Porto Rico. The order is similar to the one opening communication with Santiago, and provides that all classes of mail allowable in the domestic mails of the United States may be sent to and from Ponce. All articles included in the mails are to be subject to military inspection.

Will Not Harbor Fancied Wrongs.

New York, Aug. 3.—President T. Estrada Palma of the Cuban junta, when questioned about the estrangement between General Garcia and General Shafter, said: "There is no danger that the Cubans will permit a slight misunderstanding of one of their countrymen—even of a general—with an American to affect the successful issue of the campaign. I know that General Garcia, as well as all the Cubans, has too deep a sense of gratitude toward the United States to harbor slight or fanciful wrongs against their benefactors."

To Reinforce Miles.

Washington, Aug. 3.—The quarter-master's department within the next week will have half a dozen transports at Newport News to carry General Grant's brigade to reinforce General Miles in Porto Rico. Two vessels—the Hudson and the Manitoba are now at Newport News and four more—the Leona, Rio Grande, Alamo and the Yale (the latter just chartered by the war department)—will arrive within five or six days.

Transports Arriving From Santiago.

Tampa, Fla., Aug. 3.—Contrary to expectations the transport Aransas did not sail for Porto Rico yesterday. General Rogers has all of his heavy artillery on board, but there is still some other loading to be done. The transports San Marco, Clinton and Knickerbocker arrived at quarantine last evening from Santiago. Eight more are expected to day. They will come immediately to Port Tampa as soon as their period of detention is passed.

Average to Determine the Tax.

Washington, Aug. 3.—The new war revenue act provides for the payment by the banks of a special tax, the amount of which is to be determined by the aggregate of the capital and surplus for the next preceding fiscal year. The commissioner of internal revenue has held that if, during the preceding year the amount of the capital and surplus has varied, the average of the year should determine the amount of the tax.

Furloughs For Sick and Wounded.

Washington, Aug. 3.—Adjutant General Corbin at the direction of the secretary of war issued an order granting sick and wounded soldiers at hospitals, when able to travel, one month's furlough and transportation to go to their homes. This order has been sent to the commanding officers at the general hospitals, headquarters of army corps and military departments.

Followed Her Husband.

San Francisco, Aug. 3.—The steamer Doric brings a report that Mrs. Reeves, wife of Colonel Reeves of the Thirtieth Minnesota regiment, managed to secure herself on board the transport City of Para and accompanied her husband as far as Honolulu, but whether she was permitted to continue her voyage to Manila is not known.

Emperor William Creates a Sensation.

Berlin, Aug. 3.—A sensation was created by the emperor, who telegraphed countermanding the Bismarck obsequies which were to take place in front of the reichstag building and ordering instead that mourning services be held in the Emperor William Memorial church.

HARD BARGAINERS.

Joseph Chamberlain Is of That Opinion Regarding United States Officials.

London, Aug. 3.—Speaking of the possibility of government aid to the British West Indies, the secretary of state for the colonies, Joseph Chamberlain, said in the house of commons that the government's policy was not settled, pending the result of the reciprocity negotiations between the United States and West Indies.

Continuing, Mr. Chamberlain said that he found the United States officials very hard bargainers indeed, and it was uncertain whether her majesty's government would be able to accept any of the terms offered.

COAMO OCCUPIED.

General Huelling's Advance Unopposed by the Enemy.

Ponce, Aug. 1, via St. Thomas, D. W. L., Aug. 3.—An outpost of the American army has now halted at Coamo, about two-thirds of the way to Aibonito, on the road to San Juan. Colonel Huelling's advance yesterday, met a detail sent out to reconnoiter, which reported that there was no sign of the enemy. The latter, it is said, had retreated to Aibonito, where he would make a stand.

DEFAULTER DEAD.

Stevenson Archer, Former State Treasurer of Maryland.

Baltimore, Aug. 3.—Stevenson Archer, former treasurer of Maryland, is dead at the city hospital where he had been a patient for four years. Mr. Archer was 69 years old. In 1890 the news of Archer's defalcation startled the state and country. Many believed in his innocence until he wrote: "I have proved false to the great trust committed to me." He was convicted and sentenced to five years in the penitentiary. Governor Brown pardoned him in 1894 and the aged and broken man was taken to the city hospital where he remained until his death. The amount of the defalcation was \$132,401.25.

Calling in Warrants.

Frankfort, Ky., Aug. 3.—State Treasurer Long has called in \$50,000 interest-bearing warrants issued in April, 1897. Another call for \$42,000 will be made this month.

Arm Blown Off.

Guthrie, Ky., Aug. 3.—Maude Simpkins, aged 15, had her right arm blown off yesterday by the explosion of a dynamite cartridge, which she handled carelessly.

PEACE and the measles found the young king of Spaid at the same time, and each brings troubles of its own for him.

THE whole state is watching the work of the republican convention at Indianapolis today and tomorrow. The prospect is for the best convention in the history of the state.

FLAGS are a very unusual weapon of warfare for conquering an enemy's country, but that is all that General Miles seems to need in Porto Rico. He has asked for no other supplies.

That was a handsome tribute to American manhood a Spanish prisoner paid, perhaps unconsciously, when speaking of the Rough Riders' charge. He said:
They did not fight as other soldiers. When we fired a volley they advanced. The more we fired, the nearer they came. We are not used to fight men who act so.

The victory which McKinley won last spring over the members of congress who wished to recognize the so-called government of Cuba, has never been more highly appreciated by the country than it is today. It is not often that the country is so highly indebted to the forethought and firmness of its chief executive in any single emergency. And it is not often that any public man has had so prompt and so thorough a vindication of his policy as the events of the past few weeks have brought to the president. That this country is not now in the most embarrassing situation in dealing with the Cuban question is due to the victory which the president won on the question of recognition.

An Engine With a History.

Baltimore and Ohio engine No. 99, which has just been laid aside at Grafton, W. Va., and will be consigned to the scrap pile, has quite a history. It is one of the Ross Winans camel engines and was built in 1851. There are only four of this class of engines now remaining. During the late war this engine was one of the several captured at Martinsburg by the confederates and hauled across the country by pike to Staunton, Va., under direction of Col. Thomas R. Sharp. President John W. Garrett, after the war was over, hunted up Col. Sharp and appointed him master of transportation, in recognition of the ability displayed in that unparalleled achievement.

Miraculous Benefit RECEIVED FROM Dr. Miles' New Heart Cure.

ELI P. BARCOCK, of Avoca, N. Y., a veteran of the 3rd N. Y. Artillery and for thirty years of the Babcock & Munsell Carriage Co., of Auburn, says: "I write to express my gratitude for the miraculous benefit received from Dr. Miles' Heart Cure. I suffered for years, as result of army life, from catarrh which affected my heart in the worst form, my limbs swelled from the ankles up. I bloated until I was unable to button my clothing; had sharp pains about the heart, smothering spells and shortness of breath. For three months I was unable to lie down, and all the sleep I got was in an arm chair. I was treated by the best doctors but gradually grew worse. About a year ago I commenced taking Dr. Miles' New Heart Cure and it saved my life as if by a miracle."

CABLEGRAM FROM MADRID

Announces That Terms
Are Accepted.

Dispatches to London Papers From the Spanish Capital All Say That the War Is Near an End, Owing to the Cabinet Accepting the Terms of the United States to Cease Hostilities—Rome Telegram Says the Peace Conditions Will Be Signed Saturday—Washington Authorities Continue the Preparations for War, Notwithstanding Advice Received From Confidential Agents.

Washington, Aug. 3.—Shortly before last midnight Secretary Alger, as he left the white house after a conference with the president, said the administration had received no official information that the Madrid government had accepted the terms of peace proposed by the United States.

Unofficially the president had been informed the Spanish ministry had acceded to the terms of this country for a cessation of the war. The unofficial advice have reached the president in the form not only of press dispatches, but of private dispatches from confidential agents of the United States government.

While this government has strong reasons for believing that its terms of peace have been agreed to by the Madrid government, the president is taking nothing for granted. Arrangements for pressing the war to a successful conclusion are going forward precisely as if no negotiations for peace were in progress. At a conference participated in by the president, Secretary Alger and Adjutant General Corbin at the executive mansion last night a final decision was reached as to the constitution of the provisional corps for Porto Rico to be commanded by General Wade. The regiments which are to comprise the corps were decided upon and will be designated in a general order yet to be issued. Secretary Alger said that the corps might be enroute to Porto Rico within a week.

Notwithstanding these warlike preparations, the belief in official circles amounts almost to a conviction that active hostilities practically have been concluded.

A prominent official of the administration says:

Unless the proper precautions are taken, death will lurk in every home. It does the footsteps of husband, wife and children alike. If the husband is an ambitious man, the chances are that he will overwork and take insufficient time to rest, eat and sleep. At first he may feel that trifling ill effects from his indiscretion. Then he will suffer from headaches, loss of appetite, loss of sleep, lassitude in the morning, drowsiness during the day and a general "out-of-sorts" feeling. If these conditions are neglected, almost any serious malady may be the result. Frequently it is some nervous disorder or dread consumption. Dr. Pierce's Golden Medical Discovery is the best medicine for hard-working men. It gives edge to the appetite, makes digestion and assimilation perfect, invigorates the liver and purifies and enriches the blood. It cures 98 per cent. of all cases of chronic or lingering, bronchial, throat and lung affections. All too frequently, death dogs the footsteps of the wife, in the guise of weakness and disease of the delicate and important organs that bear the burdens of wifehood and maternity. There is an unfailing cure for disorders of this nature. It is Dr. Pierce's Favorite Prescription. It acts directly on the sensitive organs concerned, making them strong, healthy and vigorous. It is sold at all medicine stores. During early childhood death lurks in every corner for these fragile innocents. The mother can only protect her babies by acquiring some practical medical knowledge. Dr. Pierce's Common Sense Medical Advice imparts this knowledge. For a paper-covered copy send 21 one-cent stamps, to cover cost of mailing only, to Dr. R. V. Pierce, Buffalo, N. Y. Cloth binding 31 stamps.

"The end is near, in my opinion. The information thus far received is unofficial and meager, but that it is accurate, in the main, we have no reason to doubt. In fact, we have reason to believe it is correct."

Ambassador Cambon, who is conducting the negotiations for the Spanish government, has not communicated with the president and it is not probable that the official response to the terms proposed by the United States has yet reached the French ambassador. Upon its receipt it will be transmitted to the president without delay.

Spain Accepts.
New York, Aug. 3.—A special cable from Madrid says: "Spain accepts the conditions of peace as set forth by the American government and only the peace details are needed to cause all hostilities to cease at once."

"A peace delegation will be chosen at once to confer with the representatives of the United States. The peace conditions set forth by President McKinley were discussed at length yesterday by Minister Sagasta and at the conclusion it was given out officially that the terms of the United States would be accepted. There are one or two amendments in the proposition of the United States that Spain will ask to be made and if this is done peace will be declared at once."

LONDON PAPERS.
Have Special Dispatches Announcing the Cabinet Decision.

London, Aug. 3.—The Madrid correspondent of The Daily Mail says: "The government has accepted the principle of the American conditions, but the acceptance will not be made public until inquiries to Washington on matters of detail have been settled thus rounding off the preliminary basis."

A Gibraltar dispatch to The Daily News says: "The censorship is daily becoming more severe, and little is known beyond the fact that peace is assured. It is understood that the note from America asks only a part of the Philippines, and that Senor Sagasta having replied that the terms will be accepted, hostilities are consequently suspended."

"A commission will be appointed to determine the basis of peace. The chief difficulty, it is asserted in official circles, is as to the date and manner of the evacuation of the Spanish possessions. There is also the question of the disposal of the war material in Cuba. Senor Sagasta, if he has a chance, will probably represent a restitution of the material as a diplomatic victory."

"It has just been asserted here that the premier has succeeded in obtaining slightly improved terms. The treaty will not be signed before September."

Terms Will Be Signed Saturday.

The Rome correspondent of The Daily Chronicle says: "Spain, it is asserted here, has accepted the American terms, with unimportant reservations, and the peace preliminaries will be signed before Saturday."

Madrid cablegram to The Standard says: "The government's reply to the American terms was forwarded Monday evening through M. Cambon, and there is a strong prospect that peace will be concluded. It is not to be supposed that the United States government will object to representations being made on the Philippine question and upon some pecuniary claims which were mooted by the United States in the West Indies. On all the remaining main issues, Spain shows a disposition to assent to the American demands."

Manila News Causes Anxiety.
"The news from Manila still causes anxiety. No foreign mails reached Madrid yesterday in consequence of floods near Burgos."

"With regard to the part played by M. Cambon, the French ambassador at Washington, there is now a marked tendency both here and in Paris to attribute to it considerable importance. Directly the final arrangement is made it is supposed that the press will be allowed more liberty of comment. The general impression is that both governments are disposed to put an end to the war as honorably as possible for Spain, which would have been easier had the United States not imposed such hard conditions with regard to the Philippines."

The Madrid correspondent of The Daily News says: "The government's reply to the American peace terms left here Monday evening. The government believes that the nature of the negotiations requires the greatest secrecy and that their success will depend upon the observance of the most absolute reserve here. Official silence, therefore, is complete."

MANASSAS.

The New Camp Selected For the Troops at Camp Alger.

Washington, Aug. 3.—Camp Alger, Va., is to be abandoned by the war department and the 20,000 men there are to be removed to a more healthful locality, near Manassas, Va. This determination is the result of recommendations made by Surgeon General Sternberg of the army.

Manassas is about 40 miles south from Washington, is near a mountainous country and the town proper is on the line of direct railroad communication with the capital city. The start from Camp Alger is to be made as soon as possible and the trip to Manassas will be in light marching order, giving the troops some practical experience in army movements. The following regiments and organizations are now at Camp Alger, in command of Major General W. M. Graham:

First New Jersey, Seventh Ohio, Sixty-fifth New York, battalion of the Ninth Ohio, Third Virginia, Twelfth Pennsylvania, Thirtieth Pennsylvania, One Hundred and Fifty-ninth Indiana, Twenty-second Kansas, Third New York, Sixth Pennsylvania, Fourth Missouri, Seventh Illinois, First Rhode Island, Third Missouri and Second Tennessee.

CHICKAMAUGA.
Fifth Illinois Gets Another Order to Move to Newport News.

Chickamauga, Ga., Aug. 3.—Major General J. C. Breckinridge arrived from Washington yesterday and assumed command of the army at Camp Thomas, relieving Brigadier General Frank, who had been temporarily in command.

The Fifth Illinois infantry, which was heretofore twice ordered to the front and as many times ordered back into camp, received final orders from the war department yesterday afternoon to proceed to Newport News, there to report to Brigadier General Fred D. Grant for embarkation with his brigade to Porto Rico. Colonel Culver, commanding this regiment, naturally felt greatly relieved, as did all of the officers and men, and there was general rejoicing in the regiment. This is the only regiment that received moving orders yesterday.

General Breckinridge thinks the moving orders heretofore will be on the basis of representing all states proportionately at the front.

Attacked by Americans.

Madrid, Aug. 3.—It is reported here that two Spanish steamers forced the blockade in Cuban waters late yesterday and were attacked by the Americans.

Will Fight to the Bitter End.

Sedalia, Ind., Aug. 3.—Clinton county commissioners refused a license at their last session for a saloon in this place. The drinking men of the town then organized a club and restocked the room formerly occupied by the saloon. This incensed the temperance people and they dynamited the building out of existence. The clubmen will fight to the bitter end.

One Killed and Fifteen Injured.

Winslow, Ariz., Aug. 3.—In a train wreck on the Santa Fe near Holbrook, Ariz., Ray Gooding of Kingman, was killed and 15 others injured, one of whom will die. The disaster was caused by a broken rail. Four cars went over, two Pullmans, one chair car and a coach.

Revenue Receipts.

Danville, Ky., Aug. 3.—Revenue receipts for the eighth district for July aggregated \$147,135.54, divided as follows: Lists, \$5,739.48; beer, \$2,118.25; spirits, \$128,890.08; cigars, \$3.00; tobacco, \$437.04; special, \$6,406.84; documentary stamps, \$3,113.28; proprietary stamps, \$427.98.

HOSTILITY TO MONKS

American Commanders Ordered to Act
in the Interest of Humanity—Reports
Received From Porto Rico Give Great
Satisfaction at the War Department.
Shafter's Sanitary Report—Condition of
the Transports at Santiago Found to Be
Shocking—Some Court-Martials in High
Places Looked For.

Washington, Aug. 3.—The officials here make no concealment of their apprehension of serious trouble to follow the execution of our programme in regard to the Philippines. The reports of the military and naval commanders of late have contained warning of expected conflicts with insurgents and no surprise will be felt at the receipt of news of an outbreak at almost any moment.

The United States government feels that it has assumed a moral obligation toward not only the foreign residents at Manila, but toward the unprotected classes of the Spanish community, women, children, nuns and priests. Therefore when intimation came that the insurgents were threatening the lives of some helpless monks orders were sent to the American military commander to look into the matter and to act in the interests of civilization and humanity. As according to report, the insurgents have shown particular hostility toward the monks it is a reasonable expectation that before long a collision will have occurred between themselves and the American troops if the latter undertake to interfere in the execution of the vengeance of the insurgents.

Some reports which have been received from Porto Rico, but which, for political reasons, cannot be made public, have given great satisfaction to the officials of the war department, since they go to show that the resistance which can be made by the Spanish troops will be very little, and it is even possible that General Miles will achieve an almost bloodless victory. In fact, it has been suggested, with some plausibility, that the Madrid government has allowed the Spanish garrison of the island to understand that they are not expected to sacrifice their lives in useless resistance to superior force so that all that is to be expected is to be a rather formal opposition to the progress of General Miles' triumphal march across the island.

Shafter's Health Reports.

General Shafter's health reports state that he is now caring for over 6,000 sick people, including Spanish soldiers, many of whom were found to be very ill. The task is a formidable one and the attempt to care for all patients probably explains in a measure the lack of adequate preparation of the transports employed in bringing home some of the wounded and sick. The conditions on these boats were found to be so shocking as to demand an immediate official investigation, which was begun yesterday, and some court-martials may be looked for in high places unless it can be shown clearly that the lack of preparations was unavoidable.

Major General Young called at the war department yesterday fresh from the front, where his health broke down under the severe exertions imposed by the campaign. He spent some time with Secretary Alger, as did Major General Wade, who has not yet been able to perfect the arrangements for his expedition to Porto Rico. For the transportation thereof the war department is making an effort to secure the American liners Harvard and Yale (late the New York and Paris), now in the charter of the navy department, and it is believed that the effort has succeeded.

As to the other liners, St. Paul and St. Louis, the navy department has not yet reached a decision, though in view of the president's desire to curtail war expenditures wherever possible, it is expected that they too will be surrendered by the navy department in the course of a few days. In this case four of the naval captains would be left without commands, namely, Sigbee of the St. Paul, Wise of the Yale, Goodrich of the St. Louis and Cotton of the Harvard, for even if the vessels were used as army transports, the law would not permit naval officers to command them.

Shafter's Sanitary Report.

Washington, Aug. 3.—In a dispatch received late yesterday General Shafter gives the sanitary report of his army as follows: Total sick, 4,255; total fever, 3,164; new cases of fever, 653; cases of fever returned to duty, 722. Deaths, 10.

GARCIA'S MOVEMENTS.

Report That He Has Had a Heavy Fight With Spaniards.

Phya del Este, Guantanamo Bay, Cuba, Aug. 3.—News was received here yesterday from General Calixto Garcia and the Cuban forces under him at Mayari, near the bay of Nipe on the north coast of the province of Santiago de Cuba. The report is that General Garcia has been in a heavy fight with Spanish troops who were trying to effect a junction with the main body of Spanish regulars at Holguin.

These Spaniards were probably the force that evacuated Nipe Bay during the recent naval bombardment. A large body of Cuban re-enforcements had reached General Garcia, and the impression is that he defeated the Spaniards in this engagement, or, at least, held his own. The Cuban dispatch says that two cannon had already been taken from the enemy and that the Spanish cavalry had been defeated, whatever that may mean. General Garcia had moved toward Holguin, as it was reported that the Spaniards were trying to open their way through the Cuban lines to the province of Puerto Principe.

POSTAL COMMUNICATION.

Opened Between Ponce, Porto Rico, and the United States.

Washington, Aug. 3.—Postmaster General Emory Smith issued an order yesterday modifying a former one prohibiting the dispatch of mail to Spain or her dependencies, so as to permit postal communication with Ponce, Porto Rico. The order is similar to the one opening communication with Santiago, and provides that all classes of mail allowable in the domestic mails of the United States may be sent to and from Ponce. All articles included in the mails are to be subject to military inspection.

Will Not Harbor Fancied Wrongs.

New York, Aug. 3.—President T. Estrada Palma of the Cuban junta, when questioned about the estrangement between General Garcia and General Shafter, said: "There is no danger that the Cubans will permit a slight misunderstanding of one of their countrymen—even of a general—with an American to affect the successful issue of the campaign. I know that General Garcia, as well as all the Cubans, has too deep a sense of gratitude toward the United States to harbor slight or fanciful wrongs against their benefactors."

To Reinforce Miles.

Washington, Aug. 3.—The quartermaster's department within the next week will have half a dozen transports at Newport News to carry General Grant's brigade to reinforce General Miles in Porto Rico. Two vessels—the Hudson and the Manitoba are now at Newport News and four more—the Leona, Rio Grande, Alamo and the Yale (the latter just chartered by the war department)—will arrive within five or six days.

Transports Arriving From Santiago.

Tampa, Fla., Aug. 3.—Contrary to expectations the transport Aransas did not sail for Porto Rico yesterday. General Rogers has all of his heavy artillery on board, but there is still some other loading to be done. The transports San Marco, Clinton and Knickerbocker arrived at quarantine last evening from Santiago. Eight more are expected today. They will come immediately to Port Tampa as soon as their period of detention is passed.

Average to Determine the Tax.

Washington, Aug. 3.—The new war revenue act provides for the payment by the banks of a special tax, the amount of which is to be determined by the aggregate of the capital and surplus for the next preceding fiscal year. The commissioner of internal revenue has held that if, during the preceding year the amount of the capital and surplus has varied, the average of the year should determine the amount of the tax.

Furloughs For Sick and Wounded.

Washington, Aug. 3.—Adjutant General Corbin at the direction of the secretary of war issued an order granting sick and wounded soldiers at hospitals, when able to travel, one month's furlough and transportation to go to their homes. This order has been sent to the commanding officers at the general hospitals, headquarters of army corps and military departments.

Followed Her Husband.

San Francisco, Aug. 3.—The steamer Doric brings a report that Mrs. Reeves, wife of Colonel Reeves of the Thirtieth Minnesota regiment, managed to secrete herself on board the transport City of Paris and accompanied her husband as far as Honolulu, but whether she was permitted to continue her voyage to Manila is not known.

Emperor William Creates a Sensation.

Berlin, Aug. 3.—A sensation was created by the emperor, who telegraphed countermanding the Bismarck obsequies which were to take place in front of the reichstag building and ordering instead that mourning services be held in the Emperor William Memorial church.

HARD BARGAINERS.

Joseph Chamberlain Is of That Opinion Regarding United States Officials.

London, Aug. 3.—Speaking of the possibility of government aid to the British West Indies, the secretary of state for the colonies, Joseph Chamberlain, said in the house of commons that the government's policy was not settled, pending the result of the reciprocity negotiations between the United States and West Indies.

Continuing, Mr. Chamberlain said that he found the United States officials very hard bargainers indeed, and it was uncertain whether her majesty's government would be able to accept any of the terms offered.

COAST OCCUPIED.

General Huelling's Advance Unopposed by the Enemy.

Ponce, Aug. 1, via St. Thomas, D. W. L., Aug. 3.—An outpost of the American army has now halted at Coamo, about two-thirds of the way to Alibonito, on the road to San Juan. Colonel Huelling's advance yesterday, met a detail sent out to reconnoiter, which reported that there was no sign of the enemy. The latter, it is said, had retreated to Alibonito, where he would make a stand.

DEFAULTER DEAD.

Stevenson Archer, Former State Treasurer of Maryland.

Baltimore, Aug. 3.—Stevenson Archer, former treasurer of Maryland, is dead at the city hospital where he had been a patient for four years. Mr. Archer was 60 years old. In 1890 the news of Archer's defalcation startled the state and country. Many believed in his innocence until he wrote: "I have proved false to the great trust committed to me." He was convicted and sentenced to five years in the penitentiary. Governor Brown pardoned him in 1894 and the aged and broken man was taken to the city hospital where he remained until his death. The amount of the defalcation was \$137,401.35.

SPAIN ACCEPTS.

MCKINLEY STATES THE TERMS OF PEACE.

Miles' Victory Will Be Bloodless.— Merritt Asks for More Troops.

Madrid dispatches state that the re-
ply has been forwarded, and that Spain
has accepted the terms of the United
States.

The president authorized an an-
nouncement yesterday that the terms
of peace are in the substance as follows:

"The president does not put forward
any claim for pecuniary indemnity, but
requires the relinquishment of all claim
of sovereignty over or title to the island
of Cuba, as well as the immediate evacu-
ation by Spain of the island; the ces-
sion to the United States and immedi-
ate evacuation of Porto Rico and other
islands under Spanish sovereignty in
the West Indies, and a like cession of
an island in the Ladrone.

"The United States will occupy and
hold the city, bay and harbor of Manila
pending the conclusion of a treaty of
peace which shall determine the con-
trol, disposition and government of the
Philippines. If these terms are ac-
cepted by Spain in their entirety it is
stated that commissioners will be
named by the United States to meet
commissioners on the part of Spain for
the purpose of concluding a treaty of
peace on the basis above indicated.

From dispatches received Porto Rico,
the War Department is convinced that
Gen. Miles' victory will be a bloodless
one.

Gen. Merritt has asked that his com-
mand be increased to 50,000 men.
There are now at Manila 12,000 troops
and 4,000 are on the way. Nine thou-

AGUINALDO seems to be so proud of his golden collar and whistle that he now wants the earth.

PEACE and the measles found the young king of Spald at the same time, and each brings troubles of its own for him.

The whole state is watching the work of the republican convention at Indianapolis today and tomorrow. The prospect is for the best convention in the history of the state.

Flags are a very unusual weapon of warfare for conquering an enemy's country, but that is all, that General Miles seems to need in Porto Rico. He has asked for no other supplies.

That was a handsome tribute to American manhood a Spanish prisoner paid, perhaps unconsciously, when speaking of the Rough Riders' charge. He said:
They did not fight as other soldiers. When we fired a volley they advanced. The more we fired, the nearer they came. We are not used to fight men who act so.

The victory which McKinley won last spring over the members of congress who wished to recognize the so-called government of Cuba, has never been more highly appreciated by the country than it is today. It is not often that the country is so highly indebted to the forethought and firmness of its chief executive in any single emergency. And it is not often that any public man has had so prompt and so thorough a vindication of his policy as the events of the past few weeks have brought to the president. That this country is not now in the most embarrassing situation in dealing with the Cuban question is due to the victory which the president won on the question of recognition.

An Engine With a History.

Baltimore and Ohio engine No. 99, which has just been laid aside at Grafton, W. Va., and will be consigned to the scrap pile, has quite a history. It is one of the Ross Winans camel engines and was built in 1851. There are only four of this class of engines now remaining. During the late war this engine was one of the several captured at Martinsburg by the confederates and hauled across the country by pike and steamer, Vs., under direction of Col. Thomas R. Sharp. President John W. Garrett, after the war was over, hunted up Col. Sharp and appointed him master of transportation, in recognition of the ability displayed in that unparalleled achievement.

MANY BURGLARIES. Crawfordsville Overrun by Thieves—Fifty Houses Looted. Crawfordsville, Ind., Aug. 3.—Within the past month no less than 50 houses here have been burglarized, and so far not one arrest has been made by the police. But little money has been secured by the burglars, but any quantity of food has been stolen from larders and numberless articles of small value have been carried off. The burglars are timid, and never enter the sleeping apartments, but confine their operations to the safer parts of the residences. Some places have been entered half a dozen times.

SHOT HER MOTHER. Result of a Young Girl's Attempt to Frighten Her Parent. Warren, Ind., Aug. 3.—Mrs. John Bruner was accidentally shot and fatally injured by her daughter, who is 14 years old. Mr. Bruner had placed his rifle in a corner near the kitchen door. Mrs. Bruner was in the yard, and the daughter thought to give her a fright by pointing the gun at her, when she came in the door. When the girl raised the gun it was accidentally discharged and the bullet passed through her mother's body, near the right lung, and lodged under her shoulder blade.

K. OF P. PARADE. Estimated That Fifty Thousand Men Will Be in Line. Indianapolis, Aug. 3.—The street parade of the Knights of Pythias on Aug. 22, to be held in connection with the encampment, is expected to be a great event. Owing to the percentage prizes and the fact that subordinate lodges—not Uniform rank men—will participate, it is estimated that 50,000 men will march in the parade and that it will require four hours to pass the reviewing stand.

HEADLESS BODY. Corpse Found on the Lake Shore Road Near South Bend. South Bend, Ind., Aug. 3.—The headless corpse of a man, supposed to be Jacob Myers of Newell, Ia., was found on the Lake Shore tracks, west of the city yesterday. The man stepped in front of a fast mail train to escape a freight train on the other track. Myers was going to the home of a relative near here.

Despondent Over Failing Eyesight. Zionsville, Ind., Aug. 3.—News has been received here that Mrs. Emma Rich of this place, who has been visiting with her sister, Mrs. William Schoonover of Argos, committed suicide yesterday by shooting herself. Miraculous Benefit
RECEIVED FROM
Dr. Miles' New Heart Cure.

ELI P. BABCOCK, of Avoca, N. Y., a veteran of the 3rd N. Y. Artillery and for thirty years of the Babcock & Munsel Carriage Co. of Auburn, says: "I write to express my gratitude for the miraculous benefit received from Dr. Miles' Heart Cure. I suffered for years, as result of army life, from sciatica which affected my heart in the worst form, my limbs swelled from the ankles up. I bloated until I was unable to button my clothing; had sharp pains about the heart, smothering spells and shortness of breath. For three months I was unable to lie down, and all the sleep I got was in an arm chair. I was treated by the best doctors but gradually grew worse. About a year ago I commenced taking Dr. Miles' New Heart Cure and it saved my life as if by a miracle."

CABLEGRAM FROM MADRID

Announces That Terms
Are Accepted.

Dispatches to London Papers From the Spanish Capital All Say That the War Is Near an End, Owing to the Cabinet Accepting the Terms of the United States to Cease Hostilities—Rome Telegram Says the Peace Conditions Will Be Signed Saturday—Washington Authorities Continue the Preparations for War, Notwithstanding Advice Received From Confidential Agents.

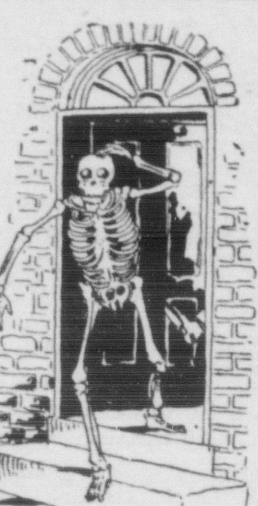

Washington, Aug. 3.—Shortly before last midnight Secretary Alger, as he left the white house after a conference with the president, said the administration had received no official information that the Madrid government had accepted the terms of peace proposed by the United States.

Unofficially the president had been informed the Spanish ministry had acceded to the terms of this country for a cessation of the war. The unofficial advice have reached the president in the form not only of press dispatches, but of private dispatches from confidential agents of the United States government.

While this government has strong reasons for believing that its terms of peace have been agreed to by the Madrid government, the president is taking nothing for granted. Arrangements for pressing the war to a successful conclusion are going forward precisely as if no negotiations for peace were in progress. At a conference participated in by the president, Secretary Alger and Adjutant General Corbin at the executive mansion last night a final decision was reached as to the constitution of the provisional corps for Porto Rico to be commanded by General Wade. The regiments which are to comprise the corps were decided upon and will be designated in a general order yet to be issued. Secretary Alger said that the corps might be enroute to Porto Rico within a week.

Notwithstanding these warlike preparations, the belief in official circles amounts almost to a conviction that active hostilities practically have been concluded.

A prominent official of the administration says:

Unless the proper precautions are taken, death will lurk in every home. It does the foot-steps of husband, wife and children alike. If the husband is an ambitious man, the chances are that he will overwork and take insufficient time to rest, eat and sleep. At first he may feel but trifling ill effects from his indiscretion. Then he will suffer from headaches, loss of appetite, loss of sleep, lassitude in the morning, drowsiness during the day and a general "out-of-sorts" feeling. If these conditions are neglected, almost any serious malady may be the result. Frequently it is some nervous disorder or dread consumption. Dr. Pierce's Golden Medical Discovery is the best medicine for hard-working men. It gives edge to the appetite, makes digestion and assimilation perfect, invigorates the liver and purifies and enriches the blood. It cures 98 per cent. of all cases of chronic or lingering, bronchial, throat and lung affections.

All too frequently, death dogs the footsteps of the wife, in the guise of weakness and disease of the delicate and important organs that bear the burdens of wifehood and maternity. There is an unfailing cure for disorders of this nature. It is Dr. Pierce's Favorite Prescription. It acts directly on the sensitive organs concerned, making them strong, healthy and vigorous. It fits for wifehood and motherhood. They are sold at all medicine stores. During early childhood death lurks in every corner for these fragile innocents. The mother can only protect her babies by acquiring some practical medical knowledge. Dr. Pierce's Common Sense Medical Adviser imparts this knowledge. For a paper-covered copy send 21 one-cent stamps, to cover cost of mailing only, to Dr. R. V. Pierce, Buffalo, N. Y. Cloth binding 31 stamps.

"The end is near, in my opinion. The information thus far received is unofficial and meager, but that it is accurate, in the main, we have no reason to doubt. In fact, we have reason to believe it is correct."

Ambassador Cambon, who is conducting the negotiations for the Spanish government, has not communicated with the president and it is not probable that the official response to the terms proposed by the United States has yet reached the French ambassador. Upon its receipt it will be transmitted to the president without delay.

Spain Accepts.
New York, Aug. 3.—A special cable from Madrid says: "Spain accepts the conditions of peace as set forth by the American government and only the peace details are needed to cause all hostilities to cease at once."

"A peace delegation will be chosen at once to confer with the representatives of the United States. The peace conditions set forth by President McKinley were discussed at length yesterday by Minister Sagasta and at the conclusion it was given out officially that the terms of the United States would be accepted. There are one or two amendments in the proposition of the United States that Spain will ask to be made and if this is done peace will be declared at once."

LONDON PAPERS.
Have Special Dispatches Announcing the Cabinet Decision.

London, Aug. 3.—The Madrid correspondent of The Daily Mail says: "The government has accepted the principle of the American conditions, but the acceptance will not be made public until inquiries to Washington on matters of detail have been settled thus rounding off the preliminary basis."

A Gibraltar dispatch to The Daily News says: "The censorship is daily becoming more severe, and little is known beyond the fact that peace is assured. It is understood that the note from America asks only a part of the Philippines, and that Senor Sagasta has replied that the terms will be accepted, hostilities are consequently suspended."

"A commission will be appointed to determine the basis of peace. The chief difficulty, it is asserted in official circles, is as to the date and manner of the evacuation of the Spanish possessions. There is also the question of the disposal of the war material in Cuba. Senor Sagasta, if he has a chance, will probably represent a restitution of the material as a diplomatic victory."

"It has just been asserted here that the premier has succeeded in obtaining slightly improved terms. The treaty will not be signed before September."

Terms Will Be Signed Saturday.
The Rome correspondent of The Daily Chronicle says: "Spain, it is asserted here, has accepted the American terms, with unimportant reservations, and the peace preliminaries will be signed before Saturday."

Madrid cablegram to The Standard says: "The government's reply to the American terms was forwarded Monday evening through M. Cambon, and there is a strong prospect that peace will be concluded. It is not to be supposed that the United States government will object to representations being made on the Philippine question and upon some pecuniary claims which were mooted by the United States in the West Indies. On all the remaining main issues, Spain shows a disposition to assent to the American demands."

Manila News Causes Anxiety.
"The news from Manila still causes anxiety. No foreign mails reached Madrid yesterday in consequence of floods near Burgos."

"With regard to the part played by M. Cambon, the French ambassador at Washington, there is now a marked tendency both here and in Paris to attribute to it considerable importance. Directly the final arrangement is made it is supposed that the press will be allowed more liberty of comment. The general impression is that both governments are disposed to put an end to the war as honorably as possible for Spain, which would have been easier had the United States not imposed such hard conditions with regard to the Philippines."

The Madrid correspondent of The Daily News says: "The government's reply to the American peace terms left here Monday evening. The government believes that the nature of the negotiations requires the greatest secrecy and that their success will depend upon the observance of the most absolute reserve here. Official silence, therefore, is complete."

MANASSAS.

The New Camp Selected For the Troops at Camp Alger.

Washington, Aug. 3.—Camp Alger, Va., is to be abandoned by the war department and the 20,000 men there are to be removed to a more healthful locality, near Manassas, Va. This determination is the result of recommendations made by Surgeon General Sternberg of the army.

Manassas is about 40 miles south from Washington, is near a mountainous country and the town proper is on the line of direct railroad communication with the capital city. The start from Camp Alger is to be made as soon as possible and the trip to Manassas will be in light marching order, giving the troops some practical experience in army movements. The following regiments and organizations are now at Camp Alger, in command of Major General W. M. Graham:

First New Jersey, Seventh Ohio, Sixty-fifth New York, battalion of the Ninth Ohio, Third Virginia, Twelfth Pennsylvania, Thirteenth Pennsylvania, One Hundred and Fifty-ninth Indiana, Twenty-second Kansas, Third New York, Sixth Pennsylvania, Fourth Missouri, Seventh Illinois, First Rhode Island, Third Missouri and Second Tennessee.

CHICKAMAUGA.

Fifth Illinois Gets Another Order to Move to Newport News.

Chickamauga, Ga., Aug. 3.—Major General J. C. Breckinridge arrived from Washington yesterday and assumed command of the army at Camp Thomas, relieving Brigadier General Frank, who had been temporarily in command.

The Fifth Illinois infantry, which was heretofore twice ordered to the front and as many times ordered back into camp, received final orders from the war department yesterday afternoon to proceed to Newport News, there to report to Brigadier General Fred D. Grant for embarkation with his brigade to Porto Rico. Colonel Culver, commanding this regiment, naturally felt greatly relieved, as did all of the officers and men, and there was general rejoicing in the regiment. This is the only regiment that received moving orders yesterday.

General Breckinridge thinks the moving orders heretofore will be on the basis of representing all states proportionately at the front.

Attacked by Americans.

Madrid, Aug. 3.—It is reported here that two Spanish steamers forced the blockade in Cuban waters late yesterday and were attacked by the Americans.

Will Fight to the Bitter End.

Sedalia, Ind., Aug. 3.—Clinton county commissioners refused a license at their last session for a saloon in this place. The drinking men of the town then organized a club and restocked the room formerly occupied by the saloon. This incensed the temperance people and they dynamited the building out of existence. The clubmen will rebuild and fight to the bitter end.

One Killed and Fifteen Injured.

Winslow, Ariz., Aug. 3.—In a train wreck on the Santa Fe near Holbrook, Ariz., Ray Gooding of Kingman, was killed and 15 others injured, one of whom will die. The disaster was caused by a broken rail. Four cars went over, two Pullmans, one chair car and a coach.

Revenue Receipts.

Danville, Ky., Aug. 3.—Revenue receipts for the eighth district for July aggregated \$147,135.54, divided as follows: Lists, \$5,739.48; beer, \$2,118.25; spirits, \$128,890.08; cigars, \$3,600; tobacco, \$437.04; special, \$6,405.84; documentary stamps, \$3,113.28; proprietary stamps, \$427.98.

American Commanders Ordered to Act
In the Interest of Humanity—Reports
Received From Porto Rico Give Great
Satisfaction at the War Department.
Shafter's Sanitary Report—Condition of
the Transports at Santiago Found to Be
Shocking—Some Court-martials in High
Places Looked For.

Washington, Aug. 3.—The officials here make no concealment of their apprehension of serious trouble to follow the execution of our programme in regard to the Philippines. The reports of the military and naval commanders of late have contained warning of expected conflicts with insurgents and no surprise will be felt at the receipt of news of an outbreak at almost any moment. The United States government feels that it has assumed a moral obligation toward not only the foreign residents at Manila, but toward the unprotected classes of the Spanish community, women, children, nuns and priests. Therefore when intimation came that the insurgents were threatening the lives of some helpless monks orders were sent to the American military commander to look into the matter and to act in the interest of civilization and humanity. As, according to report, the insurgents have shown particular hostility toward the monks it is a reasonable expectation that before long a collision will have occurred between themselves and the American troops if the latter undertake to interfere in the execution of the vengeance of the insurgents.

Some reports which have been received from Porto Rico, but which, for political reasons, cannot be made public, have given great satisfaction to the officials of the war department, since they go to show that the resistance which can be made by the Spanish troops will be very little, and it is even possible that General Miles will achieve an almost bloodless victory. In fact, it has been suggested, with some plausibility, that the Madrid government has allowed the Spanish garrison of the island to understand that they are not expected to sacrifice their lives in useless resistance to superior force so that all that is to be expected is to be a rather formal opposition to the progress of General Miles' triumphal march across the island.

Shafter's Health Reports.
General Shafter's health reports state that he is now caring for over 6,000 sick people, including Spanish soldiers, many of whom were found to be very ill. The task is a formidable one and the attempt to care for all patients probably explains in a measure the lack of adequate preparation of the transports employed in bringing home some of the wounded and sick. The conditions on these boats were found to be so shocking as to demand an immediate official investigation, which was begun yesterday, and some court-martials may be looked for in high places unless it can be shown clearly that the lack of preparations was unavoidable.

Major General Young called at the war department yesterday fresh from the front, where his health broke down under the severe exertions imposed by the campaign. He spent some time with Secretary Alger, as did Major General Wade, who has not yet been able to perfect the arrangements for his expedition to Porto Rico. For the transportation thereof the war department is making an effort to secure the American liners Harvard and Yale (late the New York and Paris), now in the charter of the navy department, and it is believed that the effort has succeeded.

As to the other liners, St. Paul and St. Louis, the navy department has not yet reached a decision, though in view of the president's desire to curtail war expenditures wherever possible, it is expected that they too will be surrendered by the navy department in the course of a few days. In this case four of the naval captains would be left without commands, namely, Sigbee of the St. Paul, Wise of the Yale, Goodrich of the St. Louis and Cotton of the Harvard, for even if the vessels were used as army transports, the law would not permit naval officers to command them.

Shafter's Sanitary Report.
Washington, Aug. 3.—In a dispatch received late yesterday General Shafter gives the sanitary report of his army as follows: Total sick, 4,255; total fever, 8,164; new cases of fever, 653; cases of fever returned to duty, 722. Deaths, 10.

GARCIA'S MOVEMENTS.

Report That He Has Had a Heavy Fight With Spaniards.

Phya del Este, Guantanamo Bay, Cuba, Aug. 3.—News was received here yesterday from General Calixto Garcia and the Cuban forces under him at Mayari, near the bay of Nipe on the north coast of the province of Santiago de Cuba. The report is that General Garcia has been in a heavy fight with Spanish troops who were trying to effect a junction with the main body of Spanish regulars at Holguin.

These Spaniards were probably the force that evacuated Nipe Bay during the recent naval bombardment. A large body of Cuban reinforcements had reached General Garcia, and the impression is that he defeated the Spaniards in this engagement, or, at least, held his own. The Cuban dispatch says that two cannon had already been taken from the enemy and that the Spanish cavalry had been defeated, whatever that may mean. General Garcia had moved toward Holguin, as it was reported that the Spaniards were trying to open their way through the Cuban lines to the province of Puerto Principe.

POSTAL COMMUNICATION.

Opened Between Ponce, Porto Rico, and the United States.

Washington, Aug. 3.—Postmaster General Emory Smith issued an order yesterday modifying a former one prohibiting the dispatch of mail to Spain or her dependencies, so as to permit postal communication with Ponce, Porto Rico. The order is similar to the one opening communication with Santiago, and provides that all classes of mail allowable in the domestic mails of the United States may be sent to and from Ponce. All articles included in the mails are to be subject to military inspection.

Will Not Harbor Fancied Wrongs.

New York, Aug. 3.—President T. Estrada Palma of the Cuban junta, when questioned about the estrangement between General Garcia and General Shafter, said: "There is no danger that the Cubans will permit a slight misunderstanding of one of their countrymen—even of a general—with an American to affect the successful issue of the campaign. I know that General Garcia, as well as all the Cubans, has too deep a sense of gratitude toward the United States to harbor slight or fanciful wrongs against their benefactors."

To Reinforce Miles.

Washington, Aug. 3.—The quarter-master's department within the next week will have half a dozen transports at Newport News to carry General Grant's brigade to reinforce General Miles in Porto Rico. Two vessels—the Hudson and the Manitoba are now at Newport News and four more—the Leona, Rio Grande, Alamo and the Yale (the latter just chartered by the war department)—will arrive within five or six days.

Transports Arriving From Santiago.

Tampa, Fla., Aug. 3.—Contrary to expectations the transport Aransas did not sail for Porto Rico yesterday. General Rogers has all of his heavy artillery on board, but there is still some other loading to be done. The transports San Marco, Clinton and Knickerbocker arrived at quarantine last evening from Santiago. Eight more are expected today. They will come immediately to Port Tampa as soon as their period of detention is passed.

Average to Determine the Tax.

Washington, Aug. 3.—The new war revenue act provides for the payment by the banks of a special tax, the amount of which is to be determined by the aggregate of the capital and surplus for the next preceding fiscal year. The commissioner of internal revenue has held that if, during the preceding year the amount of the capital and surplus has varied, the average of the year should determine the amount of the tax.

Furloughs For Sick and Wounded.

Washington, Aug. 3.—Adjutant General Corbin at the direction of the secretary of war issued an order granting sick and wounded soldiers at hospitals, when able to travel, one month's furlough and transportation to go to their homes. This order has been sent to the commanding officers at the general hospitals, headquarters of army corps and military departments.

Followed Her Husband.

San Francisco, Aug. 3.—The steamer Doric brings a report that Mrs. Reeves, wife of Colonel Reeves of the Thirteenth Minnesota regiment, managed to secrete herself on board the transport City of Para and accompanied her husband as far as Honolulu, but whether she was permitted to continue her voyage to Manila is not known.

Emperor William Creates a Sensation.

Berlin, Aug. 3.—A sensation was created by the emperor, who telegraphed countermanding the Bismarck obsequies which were to take place in front of the reichstag building and ordering instead that mourning services be held in the Emperor William Memorial church.

HARD BARGAINERS.

Joseph Chamberlain Is of That Opinion Regarding United States Officials.

London, Aug. 3.—Speaking of the possibility of government aid to the British West Indies, the secretary of state for the colonies, Joseph Chamberlain, said in the house of commons that the government's policy was not settled, pending the result of the reciprocity negotiations between the United States and West Indies.

Continuing, Mr. Chamberlain said that he found the United States officials very hard bargainers indeed, and it was uncertain whether her majesty's government would be able to accept any of the terms offered.

COAMO OCCUPIED.

General Huelling's Advance Unopposed by the Enemy.

Ponce, Aug. 1, via St. Thomas, D. W. I., Aug. 3.—An outpost of the American army has now halted at Coamo, about two-thirds of the way to Alibonito, on the road to San Juan. Colonel Huelling's advance yesterday, met a detail sent out to reconnoiter, which reported that there was no sign of the enemy. The latter, it is said, had retreated to Alibonito, where he would make a stand.

DEFAULTER DEAD.

Stevenson Archer, Former State Treasurer of Maryland.

Baltimore, Aug. 3.—Stevenson Archer, former treasurer of Maryland, is dead at the city hospital where he had been a patient for four years. Mr. Archer was 69 years old. In 1890 the news of Archer's defalcation startled the state and country. Many believed in his innocence until he wrote: "I have proved false to the great trust committed to me."

He was convicted and sentenced to five years in the penitentiary. Governor Brown pardoned him in 1894 and the aged and broken man was taken to the city hospital where he remained until his death. The amount of the defalcation was \$132,401.25.

Calling In Warrants.

Frankfort, Ky., Aug. 3.—State Treasurer Long has called in \$50,000 interest-bearing warrants issued in April, 1897. Another call for \$42,000 will be made this month.

Arm Blown Off.

Guthrie, Ky., Aug. 3.—Maude Simpkins, aged 15, had her right arm blown off yesterday by the explosion of a dynamite cartridge, which she handled carelessly.

AGUINALDO seem to be so proud of his golden collar and whistle that he now wants the earth.

PEACE and the measles found the young king of Spaid at the same time, and each brings troubles of its own for him.

The whole state is watching the work of the republican convention at Indianapolis today and tomorrow. The prospect is for the best convention in the history of the state.

Flags are a very unusual weapon of warfare for conquering an enemy's country, but that is all that General Miles seems to need in Porto Rico. He has asked for no other supplies.

That was a handsome tribute to American manhood a Spanish prisoner paid, perhaps unconsciously, when speaking of the Rough Riders' charge. He said:
They did not fight as other soldiers. When we fired a volley they advanced. The more we fired, the nearer they came. We are not used to fight men who act so.

The victory which McKinley won last spring over the members of congress who wished to recognize the so-called government of Cuba, has never been more highly appreciated by the country than it is today. It is not often that the country is so highly indebted to the forethought and firmness of its chief executive in any single emergency. And it is not often that any public man has had so prompt and so thorough a vindication of his policy as the events of the past few weeks have brought to the president. That this country is not now in the most embarrassing situation in dealing with the Cuban question is due to the victory which the president won on the question of recognition.

An Engine With a History.

Baltimore and Ohio engine No. 99, which has just been laid aside at Grafton, W. Va., and will be consigned to the scrap pile has quite a history. It is one of the Ross Winans camel engines and was built in 1851. There are only four of this class of engines now remaining. During the late war this engine was one of the several captured at Martinsburg by the confederates and hauled across the country by pike to Staunton, Va., under direction of Col. Thomas R. Sharp. President John W. Garrett, after the war was over, hunted up Col. Sharp and appointed him master of transportation, in recognition of the ability displayed in that unparalleled achievement.

SPAIN ACCEPTS.

MCKINLEY STATES THE TERMS OF PEACE.

Miles's Victory Will Be Bloodless.— Merritt Asks for More Troops.

Madrid dispatches state that the re-
ply has been forwarded, and that Spain
has accepted the terms of the United
States.

The president authorized an an-
nouncement yesterday that the terms
of peace are in the substance as follows:

"The president does not put forward
any claim for pecuniary indemnity, but
requires the relinquishment of all claim
of sovereignty over, or title to the island
of Cuba, as well as the immediate evac-
uation by Spain of the island; the ces-
sion to the United States and immedi-
ate evacuation of Porto Rico and other
islands under Spanish sovereignty in
the West Indies, and a like cession of
an island in the Ladroneas.

"The United States will occupy and
hold the city, bay and harbor of Manila,
pending the conclusion of a treaty of
peace which shall determine the con-
trol, disposition and government of the
Philippines. If these terms are ac-
cepted by Spain in their entirety it is
stated that commissioners will be
named by the United States to meet
commissioners on the part of Spain for
the purpose of concluding a treaty of
peace on the basis above indicated.

From dispatches received Porto Rico,
the War Department is convinced that
Gen. Miles' victory will be a bloodless
one.

Gen. Merritt has asked that his com-
mand be increased to 50,000 men.
There are now at Manila 12,000 troops
and 4,000 are on the way. Nine thou-
sand six hundred more are awaiting

CAMP ALGER NEWS.

Troops There will be Moved to a Point
Near Manassas, Va.

CAMP, ALGER, Va., Aug. 3.—An order
was received here yesterday to clear
the ground for a new camp about two
miles from here and three hundred and
fifty men of the 159th Indiana worked
all day preparing the site. But the
work was all for naught. In the even-
ing another order was received direct-
ing that the men break camp early
in the morning and proceed to Manas-
sas, Va.

Camp Alger is to be abandoned and
the twenty thousand men these re-
moved to a more healthful locality near
Manassas, Va. This determination was
reached by Secretary Alger yesterday as
a result of recommendations made to
him by Surgeon General Sternberg, of
the army, who believes in frequent
changes of camping grounds of large
bodies of men and because of the rapid
spread of and the constantly increasing
mortality from typhoid fever.

Manassas is about forty miles south
from Washington, is near a mount-
ainous country and the town proper is on
the line of direct railroad communica-
tion with the capital city. The troops
will be scattered over a wide area and
as far as practicable will be kept in bri-
gades. The start from Camp Alger is to
be made as soon as possible and the
trip to Manassas will be in light march-
ing order, giving the troops some prac-
tical experience in army movements.
The understanding now is that the new
camp is to be but a temporary one, but
just how long the troops are to remain
there is not stated. Some of the Camp
Alger regiments will be selected for
Porto Rico, but the expectation is all
will go first to Manassas.
